

LIGHT *the* WAY

ministries

Light The Way Ministries focuses upon the spiritual and physical needs of the Quiché people. Our desire is that every one of them would come to have a relationship with God through Jesus Christ, be at peace with their neighbors, and be good stewards of God's creation and their community. Our goal for this ministry is to have Quiché believers and disciples of Jesus become involved in missions.

The Quiché People History.

The Quiché are very spiritual people with ancient traditions. They are noted for mixing Catholic with Mayan practices. Although many would call themselves Christian, they still follow the ancient Mayan beliefs and ancestral pagan practices, forming a contradictory and confused religious system. Much of the region is still populated with followers of "Dios Mundo" and the "Heart of Christ and the Earth" as they worship on mountain tops and along rivers. Anthropologists refer to this as an animistic Christo/pagan religion.

Goal:

Our goal is to clearly shine the truth of Jesus Christ to the Quiché people through integral ministries. Integral ministries focus on the *spiritual* needs as well as the *physical* needs through community development and the training of Community Health Evangelists. The *Light The Way* team works in the following areas:

- Leadership development
- Bible teaching with Chronological Bible Storying
- Awakening the missionary vision in local churches
- Community development projects
- Medical evangelistic clinics
- Discipleship & leadership involvement
- Evangelistic campaigns
- Youth & children's ministries
- VBS ministries and training

We work with community projects that are based upon needs, administered by the local community.
